1.5 Overview of the Organization

The Monroe County Water Authority provides high quality, safe and reliable water, in a financially responsible manner. MCWA was created by State legislation in 1950 to solve the water supply needs of this community. In 1959, the Authority took over the assets of the private New York Water Service Corporation and had 27,000 retail customers, serving just portions of the County's inner ring towns and portions of the City. As surrounding towns and villages faced new water supply challenges, the Authority's service area has steadily grown. Today, the Authority serves over 210,000 customers in every town and village in Monroe County (partially in the City of Rochester) plus towns, villages and other water authorities in each of the five adjacent counties.

The communities served are shown below:
