1.5 Overview of the Organization

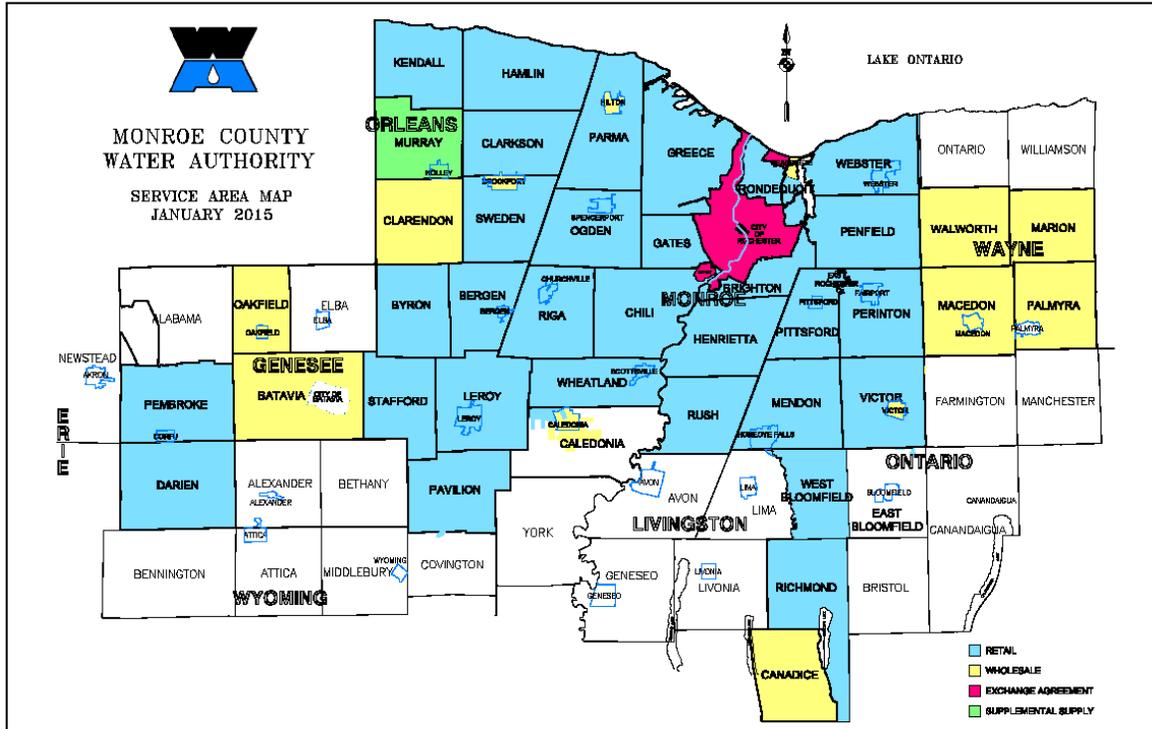

MCWA provides a high quality, safe, and reliable water supply, in a financially responsible manner.

MCWA was created by State legislation in 1950 to solve the water supply needs of this community. In 1959, MCWA took over the assets of the private New York Water Service Corporation and had 27,000 retail customers serving just portions of the County's inner ring towns and portions of the City. As surrounding towns and villages faced new water supply challenges, the MCWA service area has steadily grown. Today, we serve over 174,000 customers in every town and village in Monroe County (partially in the Village of Webster and City of Rochester) plus towns, villages and other water authorities in each of the five adjacent counties.

The MCWA system infrastructure includes two operations centers and a meter shop; three water treatment plants (i.e., Shoremont, Webster, and Corfu); 37 remote pumping stations; 44 tanks and 2 storage reservoirs; and over 2,500 miles of transmission and distribution water mains.

MCWA's workforce consists of 45 Production & Transmission employees (Water Treatment Plants; Claims & Compliance); 77 Facilities, Fleet, & Operations employees (Vehicle Shop, Warehouse, Distribution Maintenance, Hydrants, Valves and Dispatch); 31 Engineering employees (Design, Engineering Support, Technical

Support and Construction Services); 48 Finance employees (Meter Services, Accounting, Customer Service, Information Technology and Purchasing); and 8 Administration employees (Personnel, Security and Safety).

1.6 Overview of the Project

In conducting its normal operations, MCWA employees perform various job duties that require them to comply with numerous OSHA and PESH regulations.

The Water Authority, as part of its Personal Protective Equipment Program, and pursuant to its Agreement with the CSEA Local 1000 AFSCME, AFL-CIO, provides Prescription Safety Glasses to its employees when required for job performance and also to protect its employees and promote their safety.
